SKILLS

Frontend: React, TypeScript, JavaScript, Next.js, Tailwind CSS, Playwright, Redux

Backend: Node.js, Express, RESTful APIs, PostgreSQL, MongoDB, Redis, SQL, Drizzle ORM

Infrastructure & Tools: AWS (ECS/Fargate, Lambda, API Gateway, RDS, S3, CloudFront, CloudWatch), Azure, Docker, Terraform, GitHub Actions, CI/CD, Stripe, Salesforce, OAuth, OpenAI, Codex

WORK EXPERIENCE

Full Stack Engineer II | KriTech Solutions, LLC | Remote **October 2024 - Present**

- Led delivery for a \$1M auto repair partner contract, building a React/TypeScript internal app and Node.js/Express REST API on AWS ECS/Fargate with CloudWatch monitoring, cutting review time from hours to seconds.
- Delivered 3 SaaS products generating \$4K+ MRR, prototyping with Lambda/API Gateway before deploying React/TypeScript via S3/CloudFront and Node.js via Docker/ECS/Fargate with Terraform and GitHub Actions.
- Designed and built a React/TypeScript and Node.js/Express audit tool that surfaced \$5M+ in invoice variances by parsing vendor PDFs, matching line items against internal CSV data, and generating reconciliation reports.
- Architected a shared PostgreSQL cache on AWS RDS using Drizzle ORM across production Next.js applications, serving 68% of vehicle-data lookups without paid provider calls and saving hundreds in monthly API costs.
- Took ownership of Crash, an Azure-hosted platform using MongoDB/Redis caching and Salesforce/Stripe data flows, while adding Jest/Playwright coverage and resolving ~3 Jira tickets weekly to reduce bugs and downtime.

Full Stack Engineer | Freelance | Remote **May 2023 - October 2024**

- Built and maintained a Next.js/TypeScript academic journal platform with Tailwind CSS and PayPal integrations, supporting \$190K+ in client sales through enrollment, payments, email automation, and published content.
- Launched a college counseling site in one month, generating 25+ inquiries and supporting \$35K in client sales.

Quality Assurance Engineer | SEGA of America | Irvine, CA **April 2023 - March 2024**

- Tested 7 AAA titles across platforms, documenting 400+ defects across gameplay, localization, DLC, multiplayer, and release patches while verifying fixes through manual and automated regression testing.
- Collaborated with US and Japan compliance teams to identify ESRB violations and verify content before release.

Lead Developer | Connected Camps | Remote **March 2020 - April 2023**

- Promoted from counselor to developer to lead developer, launching 16 after-school Minecraft/Roblox STEM programs and leading teams of 3–8 developers through 3-month production cycles.
- Onboarded 70+ new counselors, creating training materials to help raise average reviews from 4.1 to 4.5 stars.

PROJECTS

UpdateTags | Next.js, TypeScript, Supabase/PostgreSQL, Stripe, OpenAI [Live Site](#) | [GitHub](#)

- Built and launched a Next.js/TypeScript SaaS with Supabase/Google OAuth, PostgreSQL, Redis, Stripe, and OpenAI for AI-generated Etsy tags, subscriptions, billing, and usage limits.

On Track | TypeScript, Node.js, VS Code Extension API [Marketplace](#) | [GitHub](#)

- Created a VS Code extension to track active Codex agents, elapsed time, status, and chat links.

EDUCATION

University of California, Irvine | B.S. Computer Game Science | 3.8 GPA

2020
