SKILLS

Frontend: React, TypeScript, JavaScript, Next.js, Tailwind CSS, Redux, React Router, Zod, Framer Motion

Backend: Node.js, Next.js, Express, REST APIs, PostgreSQL, Redis, Drizzle ORM, Zod, Supabase

Infrastructure & Tools: AWS (ECS, RDS, S3, CloudFront), Docker, Terraform, GitHub Actions, Stripe, Salesforce

WORK EXPERIENCE

Full Stack Engineer II | KriTech Solutions, LLC | Remote **October 2024 - Present**

- Led development for a \$1M auto repair partner contract by building an automated Node.js quote-generator API and React internal tooling that parses estimates, generates quotes, and cuts review time from hours to seconds.
- Owned end-to-end development of 3 SaaS products generating \$4K+ MRR by provisioning AWS infrastructure with Terraform, configuring GitHub Actions CI/CD, building React/Node apps, and integrating Stripe.
- Built a custom React/Node audit tool that surfaced \$5M+ in invoice variances by matching vendor PDF line items to internal CSV purchase records, comparing prices and quantities, and generating reconciliation reports.
- Architected a shared PostgreSQL cache to reduce duplicate external API calls across production Next.js apps, serving 68% of vehicle-data lookups from cache instead of paid providers and saving hundreds in monthly costs.
- Implemented JWT authentication and role-based access for multiple apps, securing APIs for managers and staff.
- Collaborated with our appraisal team to improve internal React tools with status indicators, warnings, chat, and email notifications, helping staff avoid missed updates, misread labels, and review errors.

Full Stack Engineer | Freelance | Remote **May 2023 - October 2024**

- Launched an academic journal site for a client that grew from \$0 to \$80K ARR through integrated PayPal checkouts for article submissions and writing-coach signup forms, earning repeat work on a second client site.
- Consulted for Drupal clients, modernizing UI for web apps through Figma mockups and CSS/JavaScript updates.

Quality Assurance Engineer | SEGA of America | Irvine, CA **April 2023 - March 2024**

- Tested 7 AAA titles across platforms, focusing on gameplay, localization, DLC, multiplayer, and release patches, documenting 400+ defects and verifying bug fixes through manual and automated regression testing.
- Collaborated with Japan and US based compliance teams to document ESRB violations and secure T game ratings.

Lead Developer | Connected Camps | Remote **March 2020 - April 2023**

- Promoted from counselor to developer to lead developer, launching 16 after-school Minecraft/Roblox STEM programs and guiding teams of 3–8 developers through 3-month production cycles.
- Onboarded 70+ new counselors, creating training materials to help raise average reviews from 4.1 to 4.5 stars.

SIDE PROJECTS

Tagloom | React, Next.js, TypeScript, Tailwind, Supabase, Stripe [Live Site](#) | [GitHub](#)

- Launched an Etsy tag generator that helps sellers create optimized listings to appear more frequently in searches.

Byline | React, Next.js, TypeScript, Tailwind [Live Site](#) | [GitHub](#)

- Created an online text editor to highlight changes and track word counts to support my fiction writing hobby.

EDUCATION

University of California, Irvine | B.S. Computer Game Science | 3.8 GPA **2020**

Certificates: Google UX Design Professional (2022) | Web Developer Bootcamp (2024)
