SKILLS

Frontend: React, TypeScript, JavaScript, Next.js, Tailwind CSS, Redux, React Router, Framer Motion

Backend: Node.js, Express, REST APIs, PostgreSQL, Redis, Supabase, Drizzle ORM, Zod, OpenAI

Infrastructure & Tools: AWS (ECS, RDS, S3, CloudFront), Docker, Terraform, GitHub Actions, Stripe, Salesforce, Vercel

WORK EXPERIENCE

Full Stack Engineer II | KriTech Solutions, LLC | Remote

October 2024 - Present

- Led technical delivery for a \$1M auto repair partner contract, building a Node.js quote-generation API and React internal tooling that parses estimates, generates quotes, and cuts review time from hours to seconds.
- Owned end-to-end delivery of 3 SaaS products generating \$4K+ MRR, from React/Node development through AWS infrastructure, Terraform, GitHub Actions CI/CD, and Stripe billing.
- Designed and built a React/Node audit tool that surfaced \$5M+ in invoice variances by matching vendor PDF line items to internal CSV records and generating reconciliation reports.
- Architected a shared PostgreSQL cache across production Next.js apps, serving 68% of vehicle-data lookups without paid provider calls and saving hundreds in monthly API costs.
- Worked directly with the appraisal team to improve internal React tools, adding status indicators, warnings, chat, and email notifications to help prevent missed updates and review errors.
- Led delivery of a vehicle-valuation SaaS, coordinating product, design, and engineering from requirements through launch and ongoing production updates.

Full Stack Engineer | Freelance | Remote

May 2023 - October 2024

- Built and maintained an academic journal platform that supported \$190K+ in client sales through PayPal, owning enrollment, payments, email automation, and published content.
- Launched a college counseling site in one month, generating 25+ inquiries and supporting \$35K in client sales.

Quality Assurance Engineer | SEGA of America | Irvine, CA

April 2023 - March 2024

- Tested 7 AAA titles across platforms, documenting 400+ defects across gameplay, localization, DLC, multiplayer, and release patches while verifying fixes through manual and automated regression testing.
- Collaborated with US and Japan compliance teams to identify ESRB violations and verify content before release.

Lead Developer | Connected Camps | Remote

March 2020 - April 2023

- Promoted from counselor to developer to lead developer, launching 16 after-school Minecraft/Roblox STEM programs and leading teams of 3–8 developers through 3-month production cycles.
- Onboarded 70+ new counselors, creating training materials to help raise average reviews from 4.1 to 4.5 stars.

PROJECTS

UpdateTags | Next.js, TypeScript, Supabase, Stripe, OpenAI

[Live Site](#) | [GitHub](#)

- Built and launched an Etsy tag SaaS with AI generation, subscriptions, billing, and usage limits.

On Track | TypeScript, Node.js, VS Code Extension API

[Marketplace](#) | [GitHub](#)

- Created a VS Code extension to track active Codex agents, elapsed time, status, and chat links.

EDUCATION

University of California, Irvine | B.S. Computer Game Science | 3.8 GPA

2020
